### CONTROL STATIONS USED:

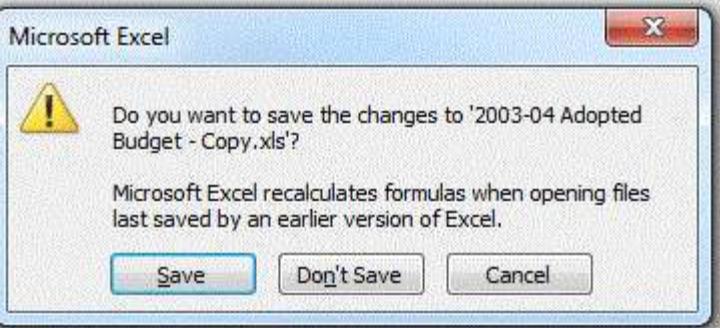

DESCRIBE ALL EVIDENCE FOUND, INCLUDING TIES AND ACCESSORIES TO COMPLY WITH  
ARIZONA REVISED STATUTE TITLE 33, SECTION 106. This monument was found in  
place, in a hand hole, prior to a Manhole being constructed  
at which time I set R.P.'s to the north at 30', 50' and 100'.

After the Manhole was in place and the rim grouted in,  
I re-established the  $\frac{1}{4}$  corner position using my R.P.'s and  
confirming this position with the found R.P.'s as shown on  
the diagram on the back of this sheet.

The  $\frac{1}{4}$  corner position falls 0.4' more or less northwesterly  
of the newly constructed Manhole rim. I drilled approximately  
2" into the concrete surrounding the Manhole. I cut the original

Migration of systems

## Migration of File Format

A screenshot of the Microsoft Excel Compatibility Checker dialog box. The title bar reads "Microsoft Excel - Compatibility Checker". The main content area contains a message about unsupported features and a warning icon. Below this is a table titled "Summary" with columns "Occurrences" and "Minor loss of fidelity". A single entry in the table is highlighted with a yellow background and a warning icon. The entry details a formula linked to closed workbooks causing character limit issues. At the bottom, there is a checked checkbox for "Check compatibility when saving this workbook" and three buttons: "Copy to New Sheet", "Continue", and "Cancel".
